RESEARCH INTERESTS

Robot Learning and Control
Geometric Deep Learning
Optimization on Manifolds

EDUCATION

Bachelor of Engineering | *Computer Science and Engineering & Mechanical Engineering* Mar. 2025 – Present
Korea University | GPA 4.46/4.5 , Major GPA 4.5/4.5 Seoul, South Korea

High School | *Early Graduation* Mar. 2023 – Feb. 2025
Chungbuk Science High School Chungbuk, South Korea

PROJECTS AND RESEARCH

Natural Language Processing | *COSE461* May. 2026
Developed a progressive MoE adapter to jointly mitigate LLM jailbreak vulnerabilities and over-refusals

RoboJam Project | *AIKU* Feb. 2026
Developed a reinforcement learning environment using Webots and Gymnasium

Story Board Project | *AIKU* Dec. 2025
Built an AI storyboard sketcher using Stable Diffusion

XR Service Development Competition | *Ministry of Science and ICT* Aug. 2025
Built a cooking assistant combining Meta Quest 3 and conversational AI

Kaggle FlightRank 2025: Aeroclub RecSys Cup | *Kaggle* Aug. 2025
Designed a Two-Tower architecture to map user-flight embeddings for efficient candidate retrieval

AI-Generated Image Classification | *AIKU* Aug. 2025
Junior-thon 1st place, Classified images generated by distinct AI architectures

HONORS AND AWARDS

2025-2 Academic Excellence Scholarship May. 2026
30% Tuition Waiver

International Collegiate Programming Contest 2025 Seoul Regional Nov. 2025
49th place, 6 solved

International Collegiate Programming Contest 2025 Seoul Online Preliminary Contest Oct. 2025
51st place, 4 solved

2025-1 Academic Excellence Scholarship Sep. 2025
Dean's List : Full Tuition Exemption

LEADERSHIP & CLUB ACTIVITIES

AIKU (Deep Learning Club)

Club Member

July 2025 – Present
Korea University

- **Selected Presentations:**
 - ML, DL Basics and Pytorch
 - Language Models Use Trigonometry to Do Addition
 - Group Equivariant Convolutional Networks
 - An Image is Worth 32 Tokens for Reconstruction and Generation
 - SLAM; Pose Graph Optimization
- **Hackerthon**
 - Organized the Yonsei-Korea Joint AI Hackathon
- **Kaggle Competition Organizer**
 - Organized the 11th AIKUTHON.
- **2025 Google Student Ambassador : # TeamGemini**

ALPS (Algorithm & Problem Solving Club)

Club President

Sep. 2025 – Jan. 2026
Korea University

- Direct the academic club as President, managing regular sessions and study groups.
- Organized the 2025 Korea University Collegiate Programming Contest (KCPC), managing logistics and serving as a problem setter and reviewer.

MatKor (Information Security & Algorithm Club)

Executive Board Member

May. 2025 – Jan. 2026
Korea University

- Served as a Problem Setter and Reviewer for The 7th MatKor Cup (Summer 2025)

ONLINE COURSEWORK

Flow Matching and Diffusion Models (MIT 6.S184) | MIT OCW

Instructed by Peter Holderrieth & Ezra Erives

Feb. 2026

Linear Algebra (MIT 18.06) | MIT OCW

Instructed by Gilbert Strang

Jan. 2025

SKILLS

Languages: Korean(Native), English, Chinese(HSK 4)

Programming: C, C++, Python (NumPy, PyTorch)

Document Creation: LaTeX, Markdown
